

2022 Fall Hydrant Flushing Schedule

CARBON CLIFF – Beginning September 6 and finishing September 30, 2022, Carbon Cliff Public Works will flush all hydrants within the Village of Carbon Cliff to make sure they are in good working order. Flushing hydrants removes any sediment that has built up within the distribution system. The schedule below will let you know when we will be in your area. ***Flushing will be done between the hours of 8:00 AM and 3:00 PM, Monday through Friday.***

Chlorine Smell. During this time the Village will be running free chlorine to flush out a buildup of nitrite in the system. Some residents may experience a chlorine odor as we flush out our system. Once the system has been flushed, we will change back to chloramine and the smell will go away.

The Village ***does not*** recommend doing laundry during the scheduled times hydrants are flushed in your area. Hydrant flushing can stir up rust and you do not want that in your washing machine. If there is any discoloration in your faucet water, please let it run for a few minutes, preferably from the tub spout. This should clear up your water and remove any remaining rust and dirt particles. Once you have clear water in your faucet, it is safe to do laundry. Residents may wish to run a rinse cycle, without clothing, in your washing machine before doing laundry. Hydrant flushing is a good time of year to remove and clean the screens on your faucets if they are prone to calcium, lime, and rust buildup. The water is safe to drink during this time.

If you have any questions, please call Nick Gottwalt, Director of Community & Administrative Services at (309) 796-6045 (M-F 9:00 a.m. - 5:00 p.m.) or e-mail n.gottwalt@carboncliff.com.
